

One powerful compliance ecosystem to enhance visibility, increase productivity and reduce risk.

Introducing Vantify: our unified ecosystem that provides clients with a single vantage point for compliance and risk management.

Our integrated products and services cover every aspect of compliance, from risk assessments to supply chain management.

When everything works together, you can spend more time on other things that matter to your business. That's why our products have been designed to integrate with each other, helping you save time and cost, ensure compliance, and keep your people and property running at peak performance.

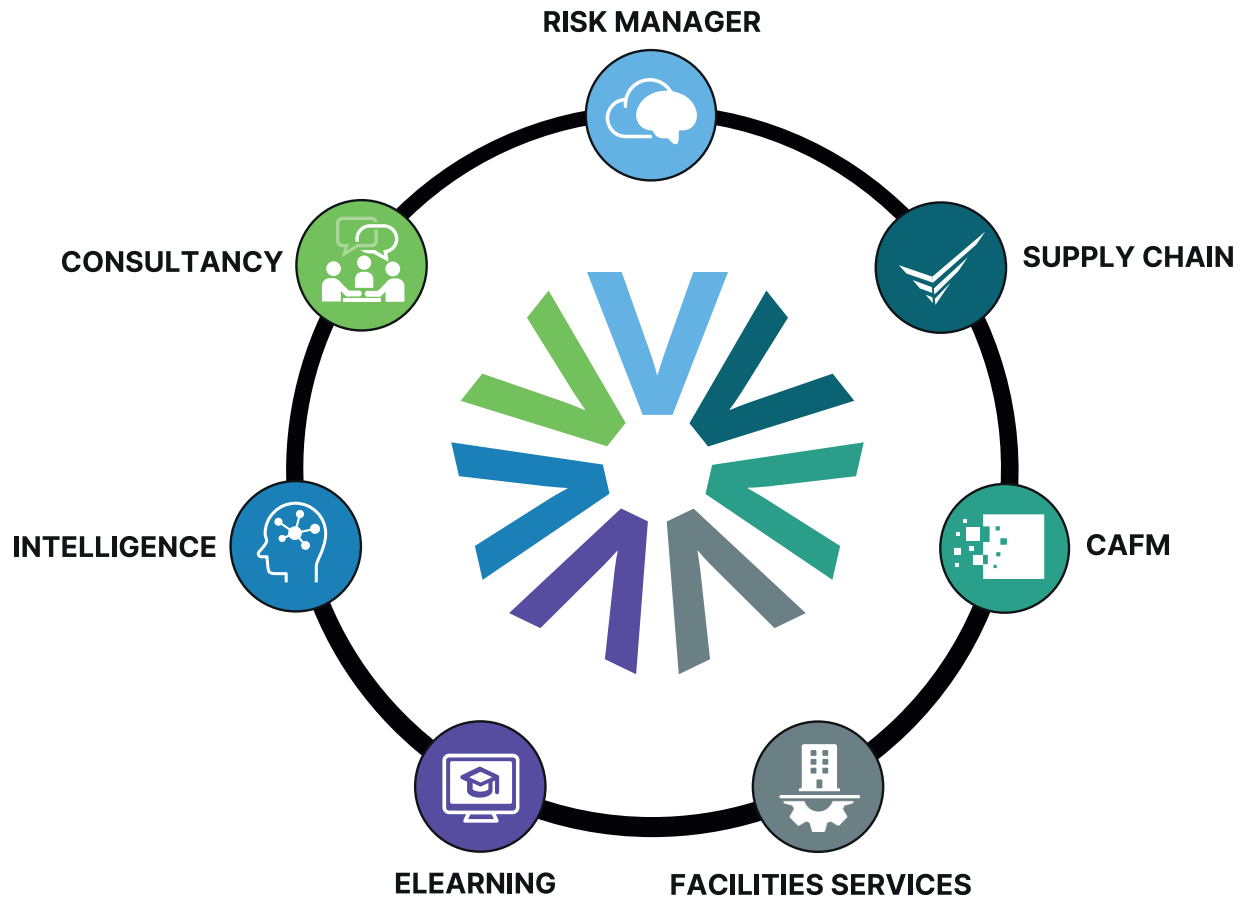

**Better together.
Only with Vantify.**

"Companies using CAFM software report a 25% reduction in maintenance costs and a 20% increase in asset lifespan."

- Systems and Archibus

The Vantify Ecosystem

The Vantify Ecosystem is designed for flexibility and maximum efficiency. Each product delivers standalone value, catering to specific needs, but when combined they seamlessly integrate to enhance performance, streamline operations, and unlock even better productivity.

Over 50% of UK businesses fail to fully comply with health and safety regulations, putting employees at risk and incurring legal consequences. - Health and Safety Executive (HSE).

Achieve compliance without compromise, guided by experts and powered by data.

Achieve lasting compliance without compromise and build a thriving safety culture with our expert consultancy services. Our expert consultants integrate with your

team to offer customised guidance and support in ensuring compliance with health and safety legislation and guidance. We equip you to proactively identify and mitigate property and occupational risks, helping you to facilitate a safe and compliant environment for your people and your business.

Consultant-Led Expertise: We provide practical advice on health & safety, environmental services, asbestos, fire safety and deliver training courses informed by real-world expertise.

Bespoke Solutions: We provide customised solutions to tackle your specific compliance challenges, using our expertise to develop practical, effective strategies for your organisation.

MI Reporting: Through advanced analytics, we transform compliance data into clear, actionable insights that enable you to develop targeted strategies that lead to tangible improvements.

Seamless integration with **Risk Manager**

Instant document storage.

Consultancy reports auto-upload into Risk Manager for easy, instant access.

Smart action tracking.

Risks, Actions and Recommendations pull through from Consultancy visits automatically.

Complete compliance visibility.

Gain a real-time overview of your compliance status, and stay on top of actions, all in one place.

"77% of UK businesses report significant improvements in operational efficiency after engaging with specialised consultancy services"
- The Consultancy Association.

Achieve full compliance visibility and proactive risk management with our intuitive platform.

Unify your compliance data across all operations for simplified management, reduced risk, and reliable oversight. Automate key processes, generate insightful reports, and gain a clear view of your compliance landscape for proactive risk management.

Customisable Dashboards: Tailor your view of data with personalised dashboards, providing instant insights into key metrics and areas requiring attention.

Integrated Workload Management: Efficiently manage tasks with dedicated dashboards that streamline workflows, assign responsibilities, and track progress.

Comprehensive Reporting Tools: Generate detailed reports with ease using pre-built templates and customisable options, gaining valuable insights into your risk manager performance.

Optimise by combining with **Supply Chain**

Live compliance checks.

With live data from Supply Chain, you can instantly verify contractor compliance inside Risk Manager.

Centralise supplier information.

Eliminate data silos and improve efficiency by centralising information within Risk Manager.

Controlled high-risk work.

Ensure contractors are safe and compliant by leveraging Supply Chain's integration with the Risk Manager Permit module.

"I go in through the dashboard and I can click into the pie chart and look at what's noncompliant or if there's overdue actions. So then, I've got a number of questions already formed..." - Gary Burdett, Senior Health and Safety Manager, BNP Paribas Real Estate

Transform your supply chain with complete visibility, control, and actionable insights.

Enjoy complete visibility and control across your entire supply chain, all within our comprehensive platform. Ensure compliance, mitigate risk, and streamline procurement processes with our powerful tools and real-time insights.

Bespoke Question Sets: Tailor assessments to your unique requirements, ensuring suppliers meet your standards and industry regulations. We also offer industry standard SSIP, and our Pre-Qualified assessment.

Integrated Financial Health Checks: Access real-time financial and governance data powered by Red Flag Alert, enabling you to proactively identify potential supplier issues.

End-to-End Supply Chain Visibility: Monitor the performance and compliance of your suppliers and service providers throughout the entire lifecycle, from onboarding to contract completion.

The perfect partner to **CAFM**

Smarter facilities management.

Say goodbye to manual checks - say hello to your one true view. Verified suppliers sync instantly with your CAFM for a single source of truth.

Hassle-free contractor management.

Instantly select and schedule pre-approved, compliant service providers from your Supply Chain within CAFM.

Mitigate contractor risk.

Ensure only verified contractors are assigned to jobs, minimising compliance gaps.

“The system provides us with confidence getting the right contractor to the right job, with the right competencies that the job will be undertaken safely.” - Darryl Parker,
Head of Health, Safety & Facilities Management, AS Watson UK

Simplify facilities management and optimise your assets with software you can rely on and people you can trust.

Take control of your facilities with our powerful and intuitive CAFM system. Streamline operations, automate tasks, and gain complete visibility over your assets and maintenance activities. This is a CAFM service backed by a team of experts: our 24/7 Service Desk

provides trusted support whenever you need it. They can log issues, assign contractors, and make sure jobs get done by the right people at the right time.

User-friendly Interface: Experience a user-friendly interface designed for easy asset management and workflow automation.

Integrated System: Integrate with existing systems to provide a unified view of operations, breaking down data silos and enhancing cross-departmental collaboration.

24/7 Service Desk: CAFM service backed by humans that are available 24/7 to address problems both quickly and efficiently.

Take it further with Facilities Services

All fabric maintenance, sorted.

Access pre-qualified professionals who undergo continuous assessments for quality, safety, and compliance, ensuring reliable service and minimising risk.

No contractor? No problem.

Facilities Services will act as your bridge to competent, compliant, and high quality contractors - anywhere in the UK.

Fully vetted supply chain.

All contractors that go through our Facilities Services team have been vetted through Supply Chain.

"Having this CAFM, we are identifying trends and reducing emergency call outs by managing our planned maintenance more efficiently which is certainly providing cost savings." - Samuel Urmston, Regional Facilities Manager, Whistl

Simplify operations, control costs, and mitigate risk with our contractor management solution.

Our solution combines a UK-wide network of vetted contractors and a dedicated support team to provide efficient, time-saving maintenance management. We streamline workflows, reduce administrative burden, and provide data insights for proactive decision-making.

Our approach to maintenance planning and contractor management ensures your facilities always operate at peak performance.

Vetted Contractor Network: Minimise risk with access to pre-qualified professionals who undergo continuous assessments for quality, safety, and compliance.

One Point of Contact: Benefit from bespoke question sets. With effective management and cost-controls of maintenance needs, you can reduce miscommunication, service delays, and admin.

Comprehensive Risk Management: We handle all contractor performance risks for you, including compliance, insurance, and quality assurance.

Empower your team with **eLearning**

Holistic approach to compliance and FM.

Our eLearning courses can be tailored to educate your team on best practices - leading to less down time for assets, more compliance awareness, and a safer environment for all.

Improved maintenance and compliance outcomes.

By ensuring your staff are well-trained, you can help reduce risks, improve maintenance efficiency, and maximise the lifespan of your building fabric.

Mandatory training for compliance.

Ensure all facility managers, contractors, and service providers complete required compliance courses before being assigned work.

"Before Elogs Facilities Services, we struggled to deploy the right suppliers across the whole of the UK." - Richard Curnow, Head of Partner Performance & Optimisation, JLL

Reduce risk and boost productivity with engaging accessible training to use anytime, anywhere.

Our eLearning platform provides accessible, cost-effective training opportunities for your entire workforce. Deliver training anytime, anywhere, with our diverse library of courses, minimising disruption to operations and maximising employee convenience.

Diverse Course Library: Access a wide range of ready-to-use courses covering essential workplace topics, including health and safety, compliance, and professional development.

Customisable Content: Tailor training materials to your specific needs and branding. Everything is relevant to your workforce specifically.

Progress Tracking and Reporting: Monitor learner progress, identify knowledge gaps, and generate detailed reports to measure training effectiveness.

Achieve more with **Intelligence**

Level up your team.

Our eLearning provides foundational compliance training, and Intelligence builds on this with in-depth, up-to-date regulatory guidance.

Master complex legislation.

Intelligence saves time by providing concise, accurate resources, eliminating the need for employees to research or interpret legislation on their own.

Efficiency and time-saving.

After learning the basics, Intelligence ensures employees can apply compliance knowledge with real-world, actionable tools.

“Employees who engage in eLearning are 35% more likely to retain information and apply it to their roles compared to traditional learning methods.” - The eLearning Industry UK

Simplify compliance, reduce risk, and unlock greater efficiency with our expert-backed legal library and extensive resources consolidated into a straightforward platform.

Stay ahead of the curve with our full online library of legislation, standards, and guidance. Intelligence provides expert interpretation to empower your team to make informed decisions and promote a safety-led culture.

Comprehensive Legal Library: Access an extensive, collection of legislation, standards, and guidance covering health, safety, environment, and facilities management.

Expert Interpretation and Guidance: Understand complicated legal requirements with plain-language summaries, step-by-step action guides, and expert commentary.

Legal Registers: Access pre-populated legal registers to track compliance, demonstrate due diligence, and support accreditation efforts.

"UK businesses using advanced business intelligence tools report a 20% increase in profitability due to data-driven decision making."
- McKinsey UK
