Vantify is on a mission to reinvent the impact that compliance training can have.

In our business, it's not enough to make someone aware of risks. That's par for the course. We've got to change people's behaviour. That can be a tall order for an eLearning course, but day in, day out, that's what we aspire to do.

We believe it's our duty to empower companies who are fighting the good fight. To turn them into what they should be: strong and resilient businesses. By thinking big, and starting small. By switching on one disengaged employee, with one really relevant course. We're pulling out the stops to turn compliance training from a 'necessary evil' to a 'necessary good'.

We see ourselves as warriors in a battle for hearts and minds. Experts at switching people on to the risks and pitfalls of today's commercial-ethical minefield. We believe that risk must be relevant; it must resonate and ring true. Embedding it in the consciousness of a testy employee, that's an art form, and one we excel at.

Our mission:

Drive
behavioural
change.
